Make Room For the VOSS

Move over Evian, there's a new imported water in town. Fresh from a virgin aquifer, shielded for centuries under ice and rock in the untouched wilderness of central Norway comes **VOSS Artesian Water**. Packaged in sleek cylinders, don't confuse the water with another, more intoxicating clear beverage. Bottled under the supervision of the Norwegian Institute of Water Research, VOSS claims to be the purest water found on Earth.

Available in both still and sparkling varieties, a bottle of VOSS will run you between around \$1.25 (11.2 fl. oz.) and \$4 (27.1 fl. oz.), a bit more than your average bottle of water, but can you really put a price on perfection? Visit www.vosswater.com for more information. --AF
